

For Just 50¢ Per Position

Your Product Can Have A Full Travel Keyboard...

MECHANICAL ENTERPRISES' SABRECOIL IS A RELIABLE FULL TRAVEL KEYBOARD ASSEMBLY AT ABSOLUTE MINIMUM COST. AND AFTER 5 MILLION TEST OPERATIONS, CONTACT BOUNCE WAS STILL BELOW 15 MS.

Standard Sabrecoil keyboards include 58 or 64 position models, either capable of having a 16 or 20 position adjacent keypad. Or you may select the 16 or 20 position keypad separately. Each Sabrecoil assembly has a rigid switch housing that requires no mounting frame. And its keyboard appearance and feel are equivalent to units costing \$1.00 or more per position.

Sabrecoil keyboards and keypads are supplied with a full line of double shot keytops... flat or stepped... single or multiple width... with nonglare, matte finish.

So don't settle for an inadequate keyboard. Use Sabrecoil for industry standard, full travel operation. Contact MEI at (703) 435-9496.
