

# We have a keyboard to fit every need and every budget.

At MICRO SWITCH, we have the world's most complete line of solid-state keyboards. Which means unmatched design flexibility for you.

Our application engineers will custom tailor a keyboard to your exact specifications. Whether from our time-proven SW series or our new low-profile SD series.

Choose from keys offering over 8,000 legends, 30 colors, and 60 shapes, including standard, sculptured or re-legendable keys.

Or create new keys to fit your needs. Even lighted and two-level keys are available.

MICRO SWITCH keyboards are available with features like MOS, TTL and DTL encoding, and with two-key or N-key rollover. Your choice of arrays include standard touch typing and point-of-sale.

Working with MICRO SWITCH, you draw on our extensive solid-state experience. We've been designing reliable keyboards for hundreds of

applications since 1968 and are presently producing over 1,000 units a week. Each offering a 1% AQL and two-year warranty. This means we can supply you quickly at lower unit prices.

So whatever your needs, and whatever your budget, we'd like to supply a keyboard to fit. Contact a MICRO SWITCH Branch Office for complete information.
