

Avoid being called for interference.

Oak's FTM™ keyboard. Fully shielded against RFI/EMI to meet the FCC Article 15, Class A&B deadline and VDE requirements. Right now. At the right price.

October 1, 1983 is coming fast. That's when the FCC Article 15 RFI/EMI requirements become effective. Lucky for you, the Oak FTM (Full Travel Membrane) is ready right now.

The FTM keyboard has an inherent design that offers an optional shielding system which can be easily designed right in. You don't have to re-design your equipment with cumbersome shielding. Or, wait for other types of keyboards that have added shielding with substantial added expense.

Find out how FTM keyboards block out interference. And they're available now for a surprisingly low cost.

You can't afford not to call Oak.
