

For a product as critical as custom I²L circuits...

you need a company as reliable as CHERRY

Cherry has been combining both digital and linear functions on the same chip since the infancy of I²L logic. Long experience, integrity of design, technological innovation and manufacturing excellence are only the beginning. You'll never meet a group of engineers more eager to work with you to solve **YOUR** problems. Engineers ready for the challenge of new design concepts. Eager for your business.

It really doesn't matter what your IC problem is. Whether the solution is one of our standard digital or linear bipolar ICs—or the most sophisticated custom design—Cherry *has* or can *provide* the right solution. At the right price. With the right delivery date.

All this from the folks at Cherry: A trusted name in industry for more than 25 years.

SEND FOR OUR FREE 36 page catalog of digital and linear ICs. Includes low level amplifiers—differential amplifiers—level detectors—DC to DC converters—timing circuits—motor speed controls—optical detector systems—camera controls—flip chips.
