

## ValuePlus Keyboard

FKB8735-801R

The Fujitsu ValuePlus Keyboard brings the added functionality of an integrated pointing device to the Value family of keyboards. This unique, proprietary Fujitsu technology, known as ErgoTrac, offers an alternative to a desktop mouse in the Windows® environment. The ValuePlus makes an ideal solution for applications where desktop space is limited. It is an excellent add-on peripheral.

The pointing device has the same features as the popular Palm Mouse from Fujitsu. A further advantage is that the ErgoTrac device integrates perfectly into the cursor key pad, rather than displacing the cursor keys. Manufactured to ISO 9002 standards, it meets FCC, UL, CE, and CSA requirements. AT to PS/2 keyboard adapter; 9-pin Com port ErgoTrac connector.

## Features:

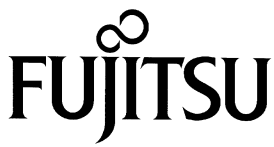

- **Integrated ErgoTrac Pointing Device**
- **Retains Cursor Key Pad**
- **Mouse alternative for Windows®**
- **Reduced desktop space requirement**
- **Quiet full-travel keyswitch action**
- **Excellent tactile feedback**
- **Full-size layout**
- **Small footprint design**
- **PS/2 adapter included**

*note: actual package may vary.*
