

FUJITSU: KEYBOARDS & KEYSWITCHES

Every day brings about a new computer or new use for keyboards. Naturally, the larger the demand, the larger the number of companies trying to meet that demand. Choosing the right supplier for your keyboard needs can be a hit or miss proposition. Unless you choose Fujitsu.

Our reliability is known and trusted throughout the world, because Fujitsu doesn't depend on what someone else thinks is good enough. We manufacture every part of our keyswitches and keyboards. From key tops to contacts to the keyboard system. That makes for tight quality control every step of the way. And that makes for a more reliable keyboard.

Fujitsu reliability also comes from experience. Fujitsu computers are in use worldwide. We know

our keyboards will work for you because they work for us. Automated production insures a standardized product. Fujitsu insures that it's dependable.

As far as service, Fujitsu considers it a point of pride, as well as good business, to cater to your company's needs before, during

and after the sale. We custom build to fit your design needs for layout, keying, coding and slant. Our warehouse is stocked to supply your company with samples. Large orders come directly from the factory. And Fujitsu can match any source's lead time for processing and shipping.

Fujitsu keyswitches and keyboards are available in mechanical, reed, hall effect and capacitance modes. Our flat, low-profile keyboards give valuable tactile and audio response to touch that most membrane type keyboards don't.

Considering everything we have to offer, Fujitsu could just be the key to your keyboard needs. Quality, reliability and service are part of our product.
